PRODUCT DESCRIPTION

Stream is designed to bring the experience of listening to your favorite music underwater – all you need is a smartwatch! The music industry is constantly evolving, and now music subscriptions are more popular than ever. People no longer have the need to download MP3 files and upload them to a device – It's all about streaming, baby!

FINIS is excited to bring that same experience to the water. With the Stream Bluetooth® Headphones, swimmers can now pair their smartwatch to listen to offline music, podcasts and more!
